## LET AGREED

**Energy Performance Certificate**

19b Cathew Villas  
LONDON  
W8 0BS

Dwelling type: Mid floor flat  
Date of assessment: 23 April 2010  
Date of certificate: 24 Apr 2010  
Reference number: 0470-2857-6145-6220-2361  
Type of assessment: RESAP, existing dwelling  
Total floor area: 47 m<sup>2</sup>

This home's performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO<sub>2</sub>) emissions.

**Energy Efficiency Rating**

England & Wales EU Directive 2002/91/EC

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating, the more energy efficient the home is and the lower the fuel bills are likely to be.

**Environmental Impact (CO<sub>2</sub>) Rating**

England & Wales EU Directive 2002/91/EC

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO<sub>2</sub>) emissions. The higher the rating, the less impact it has on the environment.

**Estimated energy use, carbon dioxide (CO<sub>2</sub>) emissions and fuel costs of this home**

	Current	Potential
Energy use	232 kWh/m <sup>2</sup> per year	232 kWh/m <sup>2</sup> per year
Carbon dioxide emissions	1.8 tonnes per year	1.8 tonnes per year
Lighting	£24 per year	£24 per year
Heating	£321 per year	£321 per year
Hot water	£73 per year	£73 per year

The figures in the table above have been provided to enable prospective buyers and tenants to compare the fuel costs and carbon emissions of one home with another. To enable this comparison the figures have been calculated using standardised running conditions (heating periods, room temperature, etc.) that are the same for all homes, consequently they are unlikely to match an occupier's actual fuel bills and carbon emissions in practice. The figures do not include the impacts of the fuels used for cooking or running appliances, such as TV, fridge etc.; nor do they reflect the costs associated with service, maintenance or safety inspections. Always check the certificate date because fuel prices can change over time and energy saving recommendations will evolve.

Remember to look for the energy saving recommended logo when buying energy-efficient products. It's a quick and easy way to identify the most energy-efficient products on the market.

This EPC and recommendations report may be given to the Energy Saving Trust to provide you with information on improving your dwelling's energy performance.

### IMPORTANT NOTICE

1. Particulars: These particulars are not an offer or contract, nor part of one. You should not rely on statements by Philip Wooller Ltd in the particulars or by word of mouth or in writing ('information') as being factually accurate about the property, its condition or its value. Neither Philip Wooller Ltd nor any joint agent has any authority to make any representations about the property, and accordingly any information given is entirely without responsibility on the part of the agents, seller(s) or lessor(s).

2. Photos etc: The photographs show

only certain parts of the property as they appeared at the time they were taken. Areas, measurements and distances given are approximate only.

3. Regulations etc: Any reference to alternations to, or use of, any part of the property does not mean that any necessary planning, building regulations or other consent has been obtained. A buyer or lessee must find out by inspection or in other ways that these matters have been properly dealt with and that all information is correct.

4. VAT: The position relating to the property may change without notice.
